

Please do not overturn New Jersey's "Do Not Call" list. It has been absolutely wonderful to not have unsolicited phone calls constantly disrupting our home life. Unsolicited phone calls are not like television or radio where if we don't like something we can simply change the channel. Unsolicited calls were, before the list, an unavoidable intrusion into our home. Doesn't it make sense that since we pay for our phone service we should have the right to decide who can and cannot call us.
